TECHNICAL SKILLS & CERTIFICATIONS

Security & Endpoint Management: Intune, Jamf, Sophos, Google Admin, Microsoft 365 Defender, HackerOne

Cloud & Infrastructure: GCP, Docker, Terraform, GitHub, Active Directory, DHCP, TCP/IP

Languages & Scripting: Python, Bash, JavaScript, SQL

Certifications: Google Cloud Certified Cloud Engineer, CompTIA Security+, CySA+, PenTest+, Network+, Project+, ISC2 SSCP, CCSP

PROFESSIONAL EXPERIENCE

Senior Tech Ops Specialist (SecOps & Systems) | INSHUR

Feb 2025 – Present

- **Lead security incident triage, investigation, and remediation** alongside Senior SecOps Engineers across 10+ security events, ensuring rapid containment of endpoint, network, and compliance alerts.
- **Partnered cross-functionally with Engineering, DevOps, and IT** to achieve company-wide Cyber Essentials Plus (CE+) certification, directly driving endpoint hardening, vulnerability remediation, and access control compliance across all user workstations.
- **Leverage Generative AI for accelerated automation and rapid prototyping**, developing 20+ custom Python, JavaScript, and Bash scripts while conducting thorough security reviews to eliminate vulnerabilities and ensure enterprise compliance.

Tech Ops Specialist | INSHUR

June 2023 – Feb 2025

- **Administered a globally distributed fleet of 250+ devices** across macOS and Windows using Jamf, Intune, and Sophos, enforcing baseline CIS/security benchmarks and compliance standards.
- **Governed identity and access management (IAM)** across Google Workspace and Microsoft 365, enforcing MFA, role-based access control (RBAC), and least-privilege principles.
- **Managed bug bounty triage and remediation tracking** via HackerOne, collaborating with DevOps to address reported vulnerabilities across cloud environments (GCP).
- **Built automated workflows and internal tooling** using Python, JavaScript, and Postman to query BigQuery/MongoDB datasets, audit user access, and streamline ticket lifecycles.

Level II Help Desk | Future Tech Enterprise Inc.

June 2021 – June 2023

- **Coordinated and executed tenant-to-tenant migration** from Microsoft 365 to Google Workspace, migrating user mailboxes, shared drives, and security policies with zero operational downtime.
- **Resolved 20+ Tier-2 escalated technical issues daily** across macOS, Windows, and peripheral hardware within strict SLA deadlines.
- **Administered Active Directory environments**, managing user provisioning, group policies (GPO), and troubleshooting network connectivity issues (DHCP, DNS, TCP/IP).

Field Service Technician II | Toshiba / IBM

Feb 2019 – June 2021

- **Successfully transitioned Walgreens contract operations** from IBM to Toshiba, ensuring zero downtime during POS and infrastructure field service handoffs.
- **Trained and supervised onboarding field service technicians** on hardware diagnostics, escalation protocols, and enterprise customer service standards.

EDUCATION

Western Governors University (WGU)

August 2024

Bachelor of Science in Cybersecurity and Information Assurance

Suffolk County Community College

May 2019

Associate of Science in Cybersecurity and Information Assurance
